11. November 2013

ePortrait develops web-/mobile apps for companies that need to collect digital portrait pictures. As part of our testing and release process, we are searching for a

Quality Assurance (QA) (m/f) for web & mobile, Berlin, intern/working student

Your tasks and responsibilities

- ☒ You are assisting our software developers by defining test cases according to predefined specifications.
- ☒ You are conducting automated unit tests and you are developing new tests yourself.
- ☒ You are helping to optimize our QA processes and to introduce new QA approaches.
- ☒ You are documenting and analyzing test results and you are suggesting solutions.
- ☒ Together, we will follow ePortrait's vision of creating the ID photography of the 21st century.

Your profile and experiences

- ☒ Experience in Test-Driven Development and Continuous Integration.
- ☒ Knowledge of software development processes from conceptualization to deployment.
- ☒ Development skills: JS, PHP (Phalcon), MySQL, MongoDB, version control (git etc), JIRA.
- ☒ A systematic work ethos, a desire for stability, quality, and for meticulous debugging.
- ☒ You are fluent in English and are able to communicate in German (min A2).
- ☒ Ideal: Experience in the administration of web servers (deployment, monitoring).

Your chance and what we offer

- ☒ Well paid internship or student work at our Berlin-Mitte office incl. a view on the Spree river.
- ☒ A team consisting of experienced founders, developers, and project managers.
- ☒ Flat hierarchies, in-depth orientation, and early assignment of responsibilities.
- ☒ Company-sponsored qualifications, flexible work hours, and company-provided hardware.
- ☒ Employee benefits such as public transport tickets, and organic fruits ;-)

Myra Vogt awaits your PDF-application (CV, desired salary) at jobs@eportrait.de as well as code samples or your profile at Github/Bitbucket/etc. Please state the job title: „Quality Assurance“. Questions via jobs@eportrait.de or call Jan: +49 30 346 55 98 22.
